Covid-19 Vaccine Update – What You Need To Know!

The decision on whether or not to take the vaccine could be the second most important decision of your life, the first being whether to accept Jesus as your savior. Once you take the vaccine, it can't be reversed except by God. The vaccine poses the serious chance of a life of sickness or in some cases death. I can attest to the fact that sickness that prevents you from experiencing the joys of life can be worse than death. But for the healthy, the Covid virus poses no more threat than the cold or flu.

Covid-19 is a real disease and people die from it. But just how many died from it is uncertain. The Covid-19 PSR test doesn't work and the technology shouldn't be used for a virus test. Most of the people who are said to have died from Covid-19 probably died from other causes and medical researchers attest to this. Even if the death count is real, your chance of surviving the virus is 99.99_% The last number in the survive-ability percentage is dependent on your age and health status. The data coming in shows you are much more likely to die from the vaccine than from the virus. On top of this, the vaccine is ineffective. So if you get the vaccine you have both a chance from dying from the vaccine and dying from the virus. Current data shows the delta virus is infecting those who have had the vaccine at a much higher rate than those who have not had the vaccine. Experts from the vaccine industry also advise that the Covid-19 vaccine is the most dangerous vaccine ever invented and it could have devastating effects on your health for the rest of your life. If your lucky and experience no side effects, your not in the clear because side effects could show up at anytime for years to come. You have to look hard for the information in this report because the main-stream is censoring it. Google recently admitted that they have deleted over 1 million videos on the dangers of the Covid-19 vaccine.

PCR Test Hoax

First, the FDA Document Admits that the “Covid” PCR Test was developed without isolated Covid-19 samples for Calibration of the test. Effectively, the FDA is admitting that the Covid-19 PCR test is testing for something else rather than Covid-19.¹

The Covid-19 PCR test is a hoax. It does not work and the technology is inappropriate for a test. The inventor of the PCR, Kary Mullis, said that it can not be used to determine if anyone is infected with a virus. In the 1980s they were trying to use the PCR to develop an HIV test. Kary said it was totally inappropriate. In short he stated: “these tests [PCR] cannot detect free, infectious viruses at all; they can only detect proteins.”² This is why the CDC will no longer be using the PCR test as of the end of December 2021 but the truth is they should have never used it and shouldn't be using it now.

Fraudulent Death Reporting

Many experts speculated that many of the Covid-19 deaths were actually flu deaths. When the 2020-2021 flu death statistics came out, speculation seemed to be confirmed. Flu deaths decreased by 97%. The 2018-2019 flu season had approximately 34,000 deaths. The 2019-2020 flu season had approximately 22,000 deaths. But during the Covid-19 outbreak, flu deaths dropped to just 600.³

The Covid-19 death toll is fraudulent. It is utterly amazing how deep the fraud goes. The fraud most likely involves many thousand of who did false reporting including government officials, doctor, nurses and hospital administrators in almost every town in the US. If someone died, they gave them a Covid test that doesn't work. They could manipulate the test to make someone test positive. If they tested

positive for Covid-19, then Covid-19 was the cause of death. It didn't matter if they died from a gun shot, or were in a car accident or were in hospice care and died from cancer or any of many other causes, Covid was listed as the cause of death. Why would people do this, corruption for one and because they got \$39,000 from the government for a Covid death.

The CDC admitted that 94% of Covid deaths had co-morbidity (other causes).⁴ The mainstream press claims that the CDC's revelation regarding co-morbidity doesn't change the actual death toll but this is a bold faced lie. I have seen medical experts who have reviewed the records. The majority of people who died were very sick and had at least 2 co-morbidities and most had as many as 6 co-morbidities. As the expert stated, most people who died from Covid were so sick, they were expected to die within a year. I don't have a link for this particular expert because I lost the link but I remember the numbers.

Another cause of Covid deaths is that patients were not treated. I listened to a doctor's testimony from Wisconsin. He was a department head and had the responsibility of establishing treatment protocols. He helped form a small team of doctors from around the country to develop a treatment protocol to beat Covid. The Hospital administration at his hospital ordered him not to implement his treatment protocol. He was ordered not to treat patients; he was only to give them symptom relief. He chose to take a leave of absence rather than to participate in killing patients. I heard a similar story from a nurse in New York. But beyond this, sick patients were forced back into Nursing Homes in New York and Michigan and some other states as well. This caused many unnecessary Covid deaths. Further, Dr. Sam Baily reveals that many treatment trials gave lethal doses of Hydroxychloroquine and other drugs to patients which increased the death rate.⁵ I would contend that these drug trials were scams and were designed to cause death and hide the fact that many effective treatments were available. If it was known and accepted that there were effective treatments for Covid, The FDA would not have been able to approve the Covid vaccines for emergency use. It is illegal for the FDA to give emergency use approval when other effective treatments are available.

Doctors who have successfully treated hundreds or even thousands of Covid patients with almost 100% success, have been ridiculed, their social media accounts have been deleted, some have been fired. Why? Is it so the Drug companies could make billions on the vaccine? Well that is probably part of it. But even more, I think it is because they want the nefarious (wicked) effects of the vaccine to be experienced by all the world including you.

The Vaccine Is Dangerous

It is well documented that the mRNA Covid-19 vaccine changes the DNA of your cells to produce the spike protein. This DNA change is irreversible except for the intervention of God. The spike protein is toxic to your body; it is a poison. Dr. Robert Malone is the inventor of the mRNA technology which is used to produce the Covid-19 mRNA vaccines. Dr. Malone says the mRNA Technology was totally inappropriate to be used to produce the Covid-19 vaccine. He further states that he warned the FDA that the spike protein is toxic and should not be used in a vaccine. But not just toxic; "it is very dangerous". Dr. Malone is not apposed to vaccines, he is a vaccine scientist but he is apposed to the Covid-19 vaccine. The spike protein is cytotoxic which means it is toxic to cells.⁶ Cytotoxins can be particularly dangerous when they attack the brain.

The vaccine manufacturers say that the mRNA only changes the DNA of cells locally in the area of where the vaccine is administered in the shoulder. And the spike protein remain in the area of the

shoulder as well. But in Japan they have done bio-distribution research to see if the spike protein stays in the shoulder. The Bio-distribution data shows that the spike protein goes throughout the entire body including your brain and heart.⁷

The long-term health consequence of the spike protein are totally unknown. The long-term health consequences of SV-40 were unknown as well. SV-40 is a monkey virus that contaminated the polio vaccine from 1961 until the end of the 1990s. Tens of millions of children were infected. It is known to cause cancer and the cancer rate has skyrocketed since it infected the vaccine. It has been announced that a test of the Covid vaccines revealed they were contaminated knowingly or unknowingly with substances not listed on the vaccine label. These include: Graphene, Nanometals (i.e. aluminum, titanium, vanadium, chromium, iron, nickel and copper), PEG (polyethylene glycol known as carcinogenic and genotoxic), and Parasites.⁸

Contaminates have been found in Japanese Covid vaccines as well. In late August 2021, Japanese officials suspended the use of a total of 2.6 million of doses of the Moderna Covid vaccine because of contaminates. Foreign substances were found in many different batches of the vaccine and two people died after receiving vaccination from the contaminated lots.⁹ Interestingly, Japan is now under a state of emergency covering 80% of its population because of the Delta variant outbreaks. The mRNA Covid-19 vaccine has proven to be ineffective against the Delta variant.¹⁰

The current evidence suggests that most healthy people are able to deal with the toxic effects of the spike protein and or the other contaminates for now. But will your body replicate the genetically altered cells and therefore increases it's production of the spike protein over time? No one knows. But what is almost certain is that everyone's body will suffer stress to the immune system at some point. When your body is overwhelmed, how will it respond to the spike protein and and other toxins then? No one knows but it is safe to say that if your body replicates the genetically altered cells, your life will go to hell.

Covid Vaccine Is Killing People!!!

The CDC VAERS (Vaccine Adverse Events Reporting System) shows that vaccine related deaths rose by approximately 700% once people began receiving the Covid-19 vaccine.¹¹ But the actual number of vaccine related deaths in the US is a mystery. Experts claim that VAERS data represents only 1% to 10% of actual adverse events. In other words, actual deaths are 10 to 100 times higher than reported deaths. As of September 17, 2021, the CDC is reporting 15,386 deaths from the Covid vaccine.¹²

A whistle-blower claiming to be a CDC insider has sworn under penalty of perjury that the CDC is falsely reporting Covid-19 vaccine deaths reported to VAERS. She has seen the actual Vaccine death count which she claims to be over 45,000. Thomas Renz, an attorney based in Ohio has filed a lawsuit, on the whistle-blower's behalf. The lawsuit alleges the federal government is covering up the true number of deaths from the Covid-19 vaccines.¹³ “According to Renz, there are as many as 12 different systems that report vaccine-caused deaths and injuries to the government. This means that the true number of Chinese Virus injection deaths could be closer to 540,000 people.”¹⁴ This is only an estimate since the CDC is covering up the truth.

One of the alternate reporting systems for vaccine injuries is V-Safe. The Whistleblower contends that V-Safe has even more information about the safety of the Covid vaccine than VAERS does but the

CDC is refusing to make public what they know. V-Safe allows users to file adverse events regarding the vaccine in a much easier manner using their smart phone.¹⁵

The European Union is reporting, based on their vaccine injury reporting system, that over 20,000 have died from the Covid-19 vaccine in the European Union and over 1.9 million have been injured by the vaccine, 50% seriously.¹⁶

A statistician estimated the number of vaccine related deaths as a result of the Covid-19 vaccine worldwide. He did statistical analysis of the numbers of people who have been reported to have received the vaccine around the world and reported covid death figures around the world. He estimated “that 800,000 to 2,000,000 of the COVID-19 deaths recorded are actually vaccine-induced deaths.”¹⁷ If these figures are right, the death rate from the vaccine is from two to five times higher than from the virus itself. The difference between the virus and the vaccine is that the virus kills almost exclusively those who are near death and the vaccine can kill healthy people as well as the sick.

The above death estimates seem to be consistent with what another researcher found. I lost track of the link to this Doctor's discussion about his research but I have the link to his data. The Doctor was going to write a paper about Covid-19 deaths and the co-factors. The Doctor pulled up a data base of over 13,000 who had been reported to have died from Covid-19. He did analysis of the first 250 people who had died on the list. To the Doctor's utter astonishment, all 250 had received the Covid-19 vaccine. And after analyzing the available information, the doctor concluded that all 250 had died from the vaccine and not from Covid-19. Based on this, the doctor concluded that vaccine deaths were being reported and hidden as Covid-19 deaths.¹⁸

The CDC is now almost essentially admitting that they are covering up Covid vaccine deaths. Dr. Simone Gold reports: “The CDC is now listing vaccinated COVID-19 deaths as UNvaccinated deaths if they die within 14 days of the vaccine.”¹⁹ If a person dies within 14-days of getting the vaccine, what do you think caused the death Covid-19 or the vaccine?

On July 18, 2021, White House Press Secretary, Jen Psaki, admitted that the Covid-19 vaccine can kill you. Sometimes the truth slips out. She stated: “Hence, our special guest today about why it's important to get vaccinated, why these vaccines are safe, why they can still kill you even if you are under the age of 27.”²⁰

Reported Covid-19 Vaccine Side Effects

The CDC is not providing accurate information to the public. When you search for CDC reports of vaccine injuries or side effects all you can find is common side effects which are minor and typical of vaccine. You don't find the more serious side effects as shown below:

VAERS Reports as of Sept. 17, 2021	Number
Serious Reaction	99,231
Life Threatening	15,988
Requiring Office Visit	110,369
Emergency Room and Doctor Visit	82,798
Hospitalized	66,642
Birth Defects	475

Disabled	20,789
Died	15,386
* These are only reported incidents; most vaccine injuries or adverse reactions go unreported. Experts claim VAERS represents only 1% to 10% of actual vaccine injuries.	
** There is a lawsuit currently in process stating the CDC is under reporting actual VAERS reports. This lawsuit is via a CDC insider.	
*** VAERS search was done via National Vaccine Information Center Search Engine.	

The CDC, Mainstream Media, Social Media and Search Engines are all making it difficult to find accurate information on potential serious vaccine side effects. If you talk to people, you will find one common thing that people share, they all know someone who has died, had a stroke, heart attack, blood clot or some other serious health condition after having the vaccine. What is more rare is people connecting these health conditions to the vaccine itself. Here is a list of some of things people have been reporting that they believe are vaccine related:

- Death
- Anaphylaxis
- Heart Attack
- Stroke
- Stillbirths
- Miscarriage
- Menstrual Changes
- Neurological Disorders
- Paralysis
- Extreme reactions for those who already had COVID-19
- Extreme reaction for those who get another COVID virus such as a cold after having received the vaccine.
- Young adults seem to have more severe reactions than older adults.

Was The Vaccine Designed To Injure and Kill?

In an explosive video, Friar Alexis Bugnolo says that vaccine scientists know that anti-body priming will kill people. He predicts the Covid-19 mRNA vaccine will lead to mass deaths in the future.²¹ Dr. Dolores Cahill, professor of molecular genetics, School of Medicine at University College Dublin is sounding the alarm as well. Dr. Cahill is not making the same dire predictions but she says it is going to be bad.

Based on animal studies, Dr. Cahill states that the time of the most severe adverse events (side effects) is when a person comes into contact with whatever was in the mRNA vaccine. In the case of the Covid-19 mRNA vaccine, your cells have been reprogrammed to produce the spike protein. When you are exposed to the spike protein from an outside source such as Covid-19, flu, or cold, your immune system learns to attack the source of the spike protein which is you. This is called an autoimmune response (the body attacks itself). An autoimmune response can lead to many diseases or conditions including death. Dr. Cahill states: “What it does is this gene therapy or medical device is setting up an

autoimmune disease chronically.” Speaking of multiple animal mRNA vaccines studies, Dr. Cahil states: “what happened in the animal studies, 20% or 50% or 100% of the animals died.” That is an astounding death rate!

Dr. Cahil says each additional booster shot increases your chances of having adverse reactions and increase the likely-hood that you will have more severe reactions. Dr Cahil predicts:

Among people over 80, maybe about 2.5% will experience severe side effects, adverse events where people cannot work or live life normally.

Then with the 2nd vaccination it could be 1 in 10 or ten percent. For the over 80-year-olds, I would think that 80% of them would have life-limiting reactions or die when they come across the messenger RNA again.

For others (not elderly) it could be half of the people who could be severely harmed.²²

A Vaccine Conspiracy Originating Over 100 Years Ago

In 1990 I learned of an obscure book from the late 1800s that outlined a plan of world wide dominion, domination mayhem and death. The book is entitled *The Protocols Of The Learned Elders Of Zion* (*The Protocols*). The book is largely thought to be a fraud and anyone talking about the plans in the book is said to be a conspiracy theorist.

Theories are used in science, medicine and by the police to try and explain a set of observations, facts, principals or circumstances. When someone testifies as to being a witness and/or having direct knowledge of certain documents, plans and activities etc., that testimony is not a theory. It is evidence.

Such is the case with *The Protocols*. Doc Marquis has testified to the authenticity and genuineness of *The Protocols*. Doc was involved in a large organization that involved world leaders, business leaders and other types of very prominent people around the world. During decades of involvement with this organization, Doc was privy to and participated in plans and conspiracies against the people of the world. He has testified that the *The Protocols* are actually genuine and that they are a Blue Print for world wide dominion, domination and mayhem dating back well over 100 years. Doc's testimony takes the information out of the realm of theory and into the realm of reality. Doc became a Christian and is now the leader of a large conservative christian ministry.

How did Doc become involved in such an insidious (evil) organization? Doc was born into an Elite family deeply involved in an Elite Organization. Doc was the 7th generation to be involved in this organization and took on important leadership rolls at a very young age. The organization he was born into is the Illuminati, a satanic organization striving to set up an evil, domineering world government. As a youth he attended elite private schools. These were not your typical elite schools. These were satanic schools where Doc learned the importance of Satanic Holidays and Human Sacrifice among many other wretched things. One of the text books Doc used was *The Protocols*.

Why is this important to a discussion of the COVID-19 Vaccine? *The Protocols* advocates the use of vaccines as a weapon against the common people. The Protocols' states: “we shall slay... We are interested in... the diminution, the KILLING OUT OF THE GOYIM (the non-initiated or common people).... THE WEAPONS IN OUR HANDS ARE LIMITLESS AMBITIONS, BURNING

GREEDINESS, MERCILESS VENGEANCE, HATREDS AND MALICE.” They intend to cause strife throughout the nations of the world in order to “utterly exhaust” humanities resistance to the NWO. They shall use “torture”, “starvation”, and even “**the inoculation of diseases (vaccines).**” (Emphasis added, words in parenthesis added for clarification)²³

This conspiracy is supported by events of the past few decades. A “group of biowarfare experts, appearing before a United Nations panel... estimated that the cost of a largescale killing operation against a civilian population would amount to \$2,000 per square kilometer with conventional weapons, \$800 with nuclear weapons, \$600 with nerve-gas weapons, and \$1 with biological weapons.” What these experts were saying is that biological weapons can kill a large civilian population at a cost savings of over 99.95% compared to conventional weapons and 99.88% compared to nuclear weapons.²⁴

“In the late 1960s, president Nixon renounced germ warfare, except for “medical defensive research.” This “defensive research continues to the present time, and primarily centers around vaccine development and the **genetic engineering of infectious agents capable of infecting large masses of people.**” (Emphasis added) Personally, I see no difference in defensive and offensive research into biological weapons; they both do the same.²⁵

Nathan Gordon, former Chief of the Chemistry Branch of the Technical Services Division of the CIA testified before a US Select Committee to Study Governmental Operations with Respect to Intelligence Activities and the Unauthorized Stockpiling of Toxic Agents in 1975. He testified:

The only way admittedly, and unequivocally, that is a large amount of material for any purposes of applying it in a lethal form to people—the only way that you could kill those large numbers of people as related to the quantity of stockpile, is, in my humble opinion, to put some of them in one long line and inoculate each and every one.²⁶

The Vaccine Is Not Effective

The theory behind vaccines are that they give you immunity against a certain disease. If they actually worked, it wouldn't matter what happened to anyone who was un-vaccinated. Yet, we are repeatedly being told that the un-vaccinated people are the cause of the problem for current Covid-19 outbreaks among the vaccinated. We are being told you still need the vaccine even if you have natural immunity – why?

A UK Aircraft carrier and it's Strike Group had a Covid-19 out-break despite the fact that everyone had had the first and second vaccination.²⁷ Likewise, a Carnival Cruise ship had an outbreak on board; “99.98 percent of the crew was vaccinated, along with the vast majority of the passengers.” In addition to being vaccinated, the crew wore N95 masks.²⁸ One of the passengers died from the virus. Could it be that vaccines are the problem?

Most universities are requiring students to be vaccinated. Duke University recently had an outbreak of Covid with 364 positive tests during random testing. It has a vaccination rate of 98%. 98% of the people infected had been vaccinated.²⁹

Israel has a vaccination rate of 71%. “According to Dr. Haviv, the vaccinated account for 85-90% of all

new hospitalizations and 95% of “severe” cases at the Herzog Medical Center in Jerusalem.” Dr. Kobi Haviv is one of Israel's leading health officials. He is the medical director of Herzog Medical Center which is Israel’s leading center for respiratory care.³⁰

In June 2021, because of the increase in Covid cases, Israel closed the border to vaccinated tourists until August 1, 2021. Apparently, Israel had no confidence that the vaccine was working.³¹

Israel is the first nation to receive the 3rd Covid booster. 1.9 million people have already received the 3rd booster or approximately 20% of the population. The result was the daily confirmed new Covid-19 cases shot through the roof to the rate of 1,000 new cases per 1,000,000 population per day. This is the highest level since the outbreak began. On August 30, 2021, the US, with a vaccination rate of 66%, had 480 new cases per 1,000,000 population per day. And India, with a vaccination rate of 42%, had 30 new cases per 1,000,000 population per day. Note that India with the lowest vaccination rate has the lowest rate of new cases.³²

On September 28, 2021, Martin Foley, Health Minister of Victoria, Australia announced there were 867 new Covid cases in the previous day. Of the 867 new Covid cases, 375 people were hospitalized, 81 people were in intensive care and 61 people were on a ventilator. The mainstream media is ignoring the most important statistic, “95% of the COVID patients in Victoria hospitals are vaccinated.” Of the hospitalized cases 78% are fully vaccinated, and 17% are partially vaccinated (1 dose).³³ The vaccination rate in Australia is 62% and the fully vaccinated rate is only 42%.³⁴ It looks like if you want to stay out of the hospital, the common denominator is to be unvaccinated.

On August 7, 2021, the Director of the CDC, Dr. Rochelle Walensky, stated in a CNN interview that the COVID vaccine cannot prevent the transmission of the disease.³⁵

NBC reported at the end of July that 125,000 people who had received the Covid vaccine had gotten Covid and 4,100 had died.³⁶ These statistics are just a drop in the bucket compared to what others have uncovered.

80% of Americans Have Natural Immunity to Covid

If you are young, you really have nothing to fear from the Covid virus. Most people have probably already been infected. In Sept. 2021, the CDC revealed 80% of Americans have been infected with Covid. This means most people are already immune to Covid. This is twice the number than previously estimated. It also means that the death rate is half of what was previously reported by the CDC.³⁷

Natural Immunity is 13 Times More Effective Than Vaccine

Once you have had Covid, you have natural immunity. Two new studies from Israel and the UK show that those who have had the vaccine have a 1,300% greater chance of getting the delta variant than those who have natural immunity from catching the virus.³⁸ In early August a Doctor from the Herzog Hospital in Jerusalem, Dr. Kobi Haviv, revealed a startling truth: “95% of the severe [Covid] patients are vaccinated”. “85-90% of the [Covid] hospitalizations are in fully vaccinated people.” “The effectiveness of the vaccine is waning/fading out”.³⁹ The question is, does the vaccine lower or destroy your natural immunity?

The Vaccine Approval Hoax – What They Are Not Telling You

It has been widely reported that the Pfizer Covid vaccine received full approval from the FDA. The reports have been completely misleading or even false. The Pfizer-BioNTech COVID-19 vaccine received Emergency Use Authorization (EUA) from FDA on December 11, 2020. This EUA was reissued on August 23, 2021. The vaccine which was approved is the BioNTech Manufacturing GmbH for COMIRNATY (COVID-19 Vaccine, mRNA). This is a different vaccine and all indications are that it is not currently available and it seems uncertain when it will be available. Some reports state it won't be available for two years.

The FDA letter reissuing the EUA for the Pfizer-BioNTech COVID-19 vaccine States: “There remains, however, a significant amount of PfizerBioNTech COVID-19 vaccine that was manufactured and labeled in accordance with this emergency use authorization...”. The letter further indicates that the vaccine expiration dates have been extended. Therefore, it can be concluded based on this information that anyone choosing to get the vaccine or forced to get the vaccine will not get the approved vaccine for some indefinite period of time but instead will get the experimental vaccine.⁴⁰

In an article in *The Defender*, Robert F. Kennedy jr. and Dr. Meryl Mass write: “The press reported that vaccine mandates are now legal... the FDA acknowledges that while Pfizer has “insufficient stocks” of the newly licensed Comirnaty vaccine available, there is “a significant amount” of the Pfizer-BioNTech COVID vaccine — produced under Emergency Use Authorization (EUA) — still available for use.... Americans, told that the Pfizer COVID vaccine is now licensed, will understandably assume COVID vaccine mandates are lawful. But only EUA-authorized vaccines, for which no one has any real liability, will be available during the next few weeks when many school mandate deadlines occur. The FDA appears to be purposefully tricking American citizens into giving up their right to refuse an experimental product.”⁴¹

I have read from several sources, that I believe to be reliable, that the COMIRNATY (COVID-19 Vaccine, mRNA) will not be available in the US until 2023. I have not been able to confirm this in FDA documents I have been able to find. Although these other source have shown documents that show a footnote that reveals a 2023 Comirnaty availability date.

Vaccine Mandates Are Illegal For Experimental Vaccines

The mRNA Covid-19 Vaccine and other Covid-19 vaccines are still experimental although they have emergency use authorization. Because they are experimental, they fall under the Nuremberg Code for Medical Experimentation.

The Nuremberg Code established the rules under which Medical Experimentation on humans could be lawfully conducted. The Nuremberg Code is the result of The Nuremberg Military Tribunal's at the end of World War II. During the war very gruesome medical experiments were carried out on prisoners of war and the Nuremberg Code sought to put an end to the misuse of medical experimentation. First and foremost, the code states that: “The voluntary consent of the human subject is absolutely essential.”⁴²

Evelyn Shuster, Ph.D., wrote an article on the Nuremberg code which appeared in the *New England Journal of Medicine*. Dr. Shuster explains “voluntary consent”. She writes:

This means that the person involved should have legal capacity to give consent; should be so

situated as to be able to exercise free power of choice, **without the intervention of any element of force, fraud, deceit, duress**, overreaching, or other ulterior form of constraint **or coercion**; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment.

The duty and responsibility for ascertaining the quality of the consent rests upon **each individual who initiates, directs or engages in the experiment**. It is a personal duty and responsibility which may not be delegated to another with impunity.⁴³ (Emphasis Added)

Anyone who asks you to get a Covid-19 vaccine or offers you a Covid-19 vaccine is engaging in medical experimentation. The legal responsibility of following **all conditions of the Nuremberg Code** rests with those who are asking you to get a vaccine or offering you a vaccine. As far as I can determine, no one has received the vaccine in full compliance with the Nuremberg Code which also requires notice of all risks involved. Certainly anyone forcing you, coercing you or threatening to fire you if you do not get the vaccine is in violation of the Nuremberg Code and subject to prosecution for crimes against humanity for as long as they live.

The full [Nuremberg Code \(Directive for Human Experimentation\)](#) can be read [here](#). Dr. Shuster's article is available [here](#).

You can download a [Notice of Nuremberg Code Medical Experimentation Violation](#) to give to your employer from [Vaxxchoice.com](#). Here is a link to the [Notice](#). People are beginning to call for those mandating vaccines to be placed in Nuremberg Tribunals for crimes against humanity. Currently, there are no Statute of Limitations for Nuremberg Code violations.⁴⁴

Vaxxchoice.com also has a lengthy report on how to file a private Criminal Complaint for Nuremberg Code violations.

If OSHA issues a rule for employer vaccine mandates, it probably won't take long for a judge to issue an injunction. Charlie Kirk of Turning Point USA, speaking about vaccine mandates, announced: "As soon as OSHA issues this rule we will sue, we will win."⁴⁵ Other companies have made similar announcements. Twenty-four Attorneys Generals from Republican states have banded together to fight the proposed vaccine mandates for large employers. A seven-page letter was sent to president Biden stating lawsuits will be filed if the proposed mandates are implemented by OSHA.⁴⁶

As of this writing, September 29, 2021, OSHA has made no rule mandating the Covid-19 vaccine. Legal experts say it would be illegal without a law authorized by Congress and signed by the president. Many legal experts believe it would still be unconstitutional. So do I.

If you are currently being mandated to take the vaccine, hold out. Your employer probably doesn't know the truth about the vaccine. Ask your employer to confirm that the approved COMIRNATY (COVID-19 Vaccine, mRNA) is actually available because it isn't. They are giving the experimental Pfizer-BioNTech COVID-19 vaccine.

Who's Not Required To Get A Vaccine

Who is exempt from Biden's vaccine mandate or not required by company policy?

- White House Staff
- Congress
- Congressional Staff
- Employees of Federal Court System
- Supreme Court
- Employee of Pfizer
- Employees of the WHO (World Health Organization)
- Illegal Aliens

It is illegal and unconstitutional to exempt certain classes of people from regulations or laws.

Therapeutic Treatments for Covid

Doctors who are actually concerned about the health of their patients in the US and around the world have proven there are many therapeutic protocols for Covid-19 that are very successful. These typically have little or no side effects and have much better outcomes over the vaccines. Many doctors have treated 1,000 patients or more with no deaths. It is important to remember that many people don't go to the doctor until they are very sick and so these therapeutic protocols would presumably have even better success if patients began a treatment protocol as soon as symptoms emerge or even after exposure to the virus is known.

The Covid-19 Delta Variant moves very quickly in comparison to the original virus. Healthy people often have harsher symptoms, compared to the original virus, as well. Some doctors are reporting that some patients have been hospitalized as early as 4-days after the first symptoms occur. For this reason, I advise people to be prepared with something to treat the virus ahead of time. Once you are sick, you can't go to the store and some doctors don't even want you come to their office. Most doctors won't treat you. Below are two excellent therapeutic protocol options.

The first, Ivermectin, requires a prescription but resources are provided to help you find a doctor who will provide you a prescription in person or over the phone. It is even possible to order online without a prescription if you want to go that route. The second option, Black Cumin Seed (Nigella sativa seed), which I personally used, is herbal and can be purchased on line or, in some cases, can be found locally.

The resource page at the end of this report provides lists of doctors willing to help you. These are doctors who are actually following the science about Ivermectin. A study out of Pakistan showed that Black Cumin Seed (Nigella sativa seed) and Honey is very effective in treating Covid-19. Black Cumin seed is a spice that is readily available online. Although both of these options are somewhat easy to get, they may be difficult to get in a timely manner if you wait.

When using Ivermectin or Black Cumin Seed, it is important to accurately calculate the dosage based on your weight. The protocols base the dosage on kilograms. One kilogram = 2.2 pounds. There is a zipfile of resources available [here](#) that has a dosage calculator will give you the proper dosages based on pounds rather than kilograms.

Ivermectin

There are many successful treatments for Covid-19. It is hard to keep track of everything but

Ivermectin now seems to be one of the most widely recommended treatments. The FLCC Alliance has published Ivermectin Protocols for the various stages. These are attached for your convenience and there are links below on the resources page. As I understand, these protocols were developed from the available scientific studies of which there are at least 30. Dr. Mercola recommends these protocols. Dr. Mercola is one of the doctors for which I have the most respect and trust.

Dr. Paul Marik of the FLCCC Alliance is a Medical School Professor and Chief, Div. of Pulmonary & Critical Care Medicine. In an interview he stated that Ivermectin is one of the most widely prescribed drugs in the world, nearly half of the world has taken it. He says it is safer than aspirin.⁴⁷ The website of the FLCCC Alliance has a vast array of information on Ivermectin and Covid-19.⁴⁸

In the Indian Northern state of Uttarakhand, the government announced that Ivermectin tablets will be distributed among the citizens of the state to prevent the spread of the Covid-19 "delta variant" on May 12, 2021. As a result of the Ivermectin use in Uttarakhand, Covid cases dropped by 98% and covid fatalities have dropped by 99%.⁴⁹

Black Cumin Seed

A controlled scientific study was done in Pakistan on the ability of Black Cumin Seed (*Nigella sativa* seed) and Honey to treat Covid-19. The Black Cumin Seed study resulted in approximately 50% reduction in recovery time versus the placebo group. For severe cases, the Placebo group had a death rate 370% higher than the Black Cumin Seed group. In other words, the Black Cumin Seed reduced the death rate by 79%.⁵⁰

The study selected moderate and severe cases for the study. In other words, these people were sick for a period of time without treatment. In theory, if they had started treatment at the first outbreak of symptoms, their symptoms may have never progressed to moderate or severe stage. And if they had advanced to severe, the death rate may have been much lower or even none at all. Since the beginning of the Covid-19 pandemic, those doctor who developed successful treatment protocols all spoke about the benefits of early treatment. In the Uttarakhand government's use of Ivermectin above, the Indian people were being given Ivermectin before infection and the death rate was decreased by 99% (early intervention at its best).

The Black Cumin seed protocol is as follows: Honey and Black Cumin Seed (*Nigella sativa* seed): Honey Dosage (1 gm per each 2.2 lb. per day) (1 teaspoon = 7 grams) and Black Cummin Seed Dosage (80 mg per each 2.2 lb per day). The daily dosage should be divided into 2 or 3 serving per day. If you buy whole Black Cumin Seeds, they should be ground in a blender or coffee grinder. You can purchase empty capsules on Ebay and fill them or take the Black Seed powder in your honey or in a drink etc. It is a good idea to eat something with each dose so you don't get any stomach distress.

Other Dr. Recommended Supplement for all Protocols (See FLCCC Alliance Protocols)

- Vitamin D3 4000 IU (50 mcg) daily
- Zinc 100 mg/day
- Selenium
- Vitamin C 500-1000 mg twice a day
- Quercetin 250 mg/day

- multivitamin Daily
- Nasal/Oral Rinse 3x daily-Gargle (**Do Not Swallow**) antiseptic mouth wash with cetylpyridinium chloride (e.g. scope, act, crest), Listerine with essential oils or povidone iodine 1% as an alternative. **Editors Note:** povidone iodine is toxic, I would substitute Lugos Formula Iodine which is a supplement and can be safely swallowed (always dilute iodine with water so you don't burn your mouth.) I use Lugos 7% solution which is available online. Our government that cares so much about us doesn't want us to have this very essential mineral.

Good News For Those Who Have Had The Vaccine

I saw a doctor interviewed who treats both patients with Covid-19 and patients with Covid-19 vaccine injuries. He says he uses the same protocols for vaccine injuries as he does for Covid-19. He says he is seeing good results. Unfortunately, vaccine injuries were not the topic of the interview and so I haven't been able to find the interview.

Freedom Isn't Free

Freedom is costly. The founding fathers gave up a lot for freedom. Freedom must be defended, tyranny must be resisted. Once you surrender your rights, you may never see them again. The Russians who lost their freedom in 1917 never saw them again. Generations had no freedom.

The fine for resisting the government tyrannical vaccine mandate is \$14,000. For a company of 100, that is \$140 per employee. For a company of 1000, that is \$14 per employee. Small cost for freedom as I see it.

Religious Objection Exemptions

A religious objection to the vaccine is your right under the US Constitution and Title VII of the Civil Rights Act of 1964. The law firm Fisher Phillips of Georgia states:

In a nutshell, Title VII requires employers to provide exemptions and accommodations for employees who raise objections to receiving employer-mandated vaccines based on their sincerely held religious beliefs.

The EEOC, which enforces Title VII, uses a very broad definition of “religion.” It goes beyond membership in a church or belief in God, and includes firmly and sincerely held moral or ethical beliefs. For instance, an employee’s objection to an employer’s policy or practice could be based on a moral belief against receiving certain chemicals in the body.⁵¹

How To Get A Religious Objection Exemption

In order to get a Religious Exemption, you must make a request. The request needs to go to whoever is requiring you to get a vaccine. In most cases, this will be your supervisor at work. The request should state that you are requesting an exemption from the vaccine based on strongly held religious beliefs. Then you should state those beliefs.

For your contemplation, I will put down some notes based my own beliefs that will hopefully help you in articulating your own beliefs.

1. My religious beliefs are my own and are not based on what someone else tells me to believe. My beliefs are based on my personal study of God's word and the guidance of His Holy Spirit. Not every situation in life is covered in the Bible, it is through a daily relationship with God and through prayer that I can receive guidance from the Holy Spirit. The guidance I have received from God regarding the Covid-19 vaccine is that I should not put this vaccine into my body. This is also consistent with the principals taught in the Bible as follows.
2. I believe in the creation teaching of the book of Genesis. Because I was created by God, I have an obligation and desire to follow God's principals, teachings and laws.
3. Having been created by God, I believe that God equipped my body to maintain health. I do not need man to modify my body or my DNA in order to maintain health. The mRNA vaccine alters God's genetic DNA code and the consequences are totally unknown. In Genesis 6:12, "God looked upon the earth, and, behold, it was corrupt; for all flesh had corrupted his way upon the earth." God decided to destroy the earth with a flood. But "Noah was a just man and perfect in his generations..." (Genesis 6:9) The Bible is clear that all humans have sinned and are born with a sinful nature. Based on this and the rest of Genesis 6, it can be concluded that Noah's DNA was perfect, it had not been corrupted. The rest of humanity was corrupted not only morally but genetically. Based on my religious beliefs I do not consent to altering the genetic code designed by God; doing such a thing would be an abomination.
4. God also put things on the earth to aid my body in maintaining health. The things he put on the earth include healthful food, vegetables, fruits, herbs, minerals etc.
5. I believe it is my duty to maintain health in accordance with God's teachings so I can fulfill God's purpose for my life.
6. It is my belief that vaccines are in opposition to God. This belief is based on years of studying vaccines and listening and reading what the experts had to say. Scientists may not consciously realize it but common vaccine science is based on the assumption that either God doesn't exist or that God had a poor design and man can improve upon it. I believe that in order to take a vaccine, I must surrender my belief that God had a perfect design and I won't do that. On the other hand, Homeopathic vaccines work with and compliment God's design and can do no harm.
7. In Leviticus and Exodus, the Bible teaches that there are clean things which makes our body healthy and there are unclean things which leads to sickness. It is my desire to follow God's teachings on clean and unclean foods and substances so I can be healthy. Since the Bible doesn't have an all encompassing list, I must make judgment calls based on available knowledge and science. I choose not to consume or put into my body those things which contain poisons, toxic chemicals, heavy metals, etc.
8. In accordance with God's teaching in Leviticus and Exodus, I choose not to put into my body man made substances which have the potential to cause death, sickness or long term illness. The Covid-19 vaccines have proven to have this potential.
9. Independent laboratory tests of the Covid vaccines have revealed they were contaminated

knowingly or unknowingly with substances not listed on the vaccine label. These include: Graphene, Nanometals (i.e. aluminum, titanium, vanadium, chromium, iron, nickel and copper), PEG (polyethylene glycol known as carcinogenic and genotoxic), and Parasites. All these are harmful or have the potential of being harmful and therefore I reject putting them into my body based on Leviticus and Exodus.

10. The vaccine is admittedly manufactured using aborted fetus cells which have been reproduced in the lab. I believe that God gives life and that life is sacred. Based on God's word, I cannot condone any abortion, the use of aborted fetus cells in products and or the use of aborted fetus cells in manufacturing. According to the principals in God's word, he who condones an activity is guilty of that very activity. You cannot accept the vaccine without condoning the activity which brought it about. I will not accept the vaccine and become guilty of abortion.
11. This principal is taught in 2 John 1:9-11 which states “Whosoever transgresseth, and abideth not in the doctrine of Christ, hath not God. He that abideth in the doctrine of Christ, he hath both the Father and the Son. If there come any unto you, and bring not this doctrine, receive him not into your house, neither bid him God speed: For he that biddeth him God speed is partaker of his evil deeds.” This is both a specific teaching and a principal that can be applied to the consequences of condoning any type of evil.

Further reasons for a religious objection on listed at Vaxxchoice.com under the resource tab. [Website – Religious Objection References](#)
